PROFESSIONAL SUMMARY

A developer with a creative eye, learning Machine Learning via Sci-kit learn and working a bit with Pytorch. Leetcode(1530), 300+ questions solved.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University	Grade: 8.1/10.0
Intermediate (Class XII)	2022 - 2024
Perna Convent	Grade: 75.0%
Matriculation (Class X)	2016 - 2021
St. Joseph's Convent	Grade: 75.0%

EXPERIENCE

Contestant	May 2024 - August 2024
Google Gemini API	<i>Remote</i>
I had competed in Google's Gemini API Contest and have used python and API frameworks with Web based GUI.	

PROJECTS

AQI Predictor (Machine Learning) (Github)	September 2025
--	----------------

- This project is primarily built using **Python**, leveraging popular libraries such as **pandas** and **scikit-learn** for data analysis, machine learning.
- The model incorporates advanced techniques for **feature selection, hyperparameter tuning, and cross-validation** to optimise prediction accuracy and reduce overfitting.
- This model is designed to predict Air Quality Index (AQI) values by analyzing historical and real-time environmental data, providing actionable insights to help monitor and mitigate air pollution.

ShortUrl (Github)	April 2025
--	------------

- ShortUrl is developed using **JavaScript** for backend logic and **EJS** for dynamic templating, ensuring a smooth full-stack experience.
- The project emphasizes efficiency with minimal resource usage, resulting in fast URL shortening and redirection without unnecessary overhead.
- ShortUrl offers a simple and intuitive interface, making URL management accessible to users while maintaining reliable performance.

NotML (Demo)	June 2024
---------------------------------------	-----------

- NotML features a modern frontend built with **React 18, Vite, React Router**, and a robust backend using **Node.js, Express, and MongoDB**.
- The project leverages Vite for fast builds and hot reloads, React hooks for efficient state management, and modular components for maintainable and scalable development.
- NotML stands out for its clean, animated user experience and open-source AI/ML tools and courses, enabling both beginners and experts to collaborate, learn, and build in a thriving community.

CERTIFICATIONS

Python Mimo (Link)	April 2020
In this course i have learnt to use python for building apps and using multiple languages together.	
Web Development Mimo (Link)	April 2020
In this course i have learnt to use HTML, CSS, JAVASCRIPT and web based apps.	

SKILLS

Computer Languages: JavaScript, CSS, HTML, Python, Machine Learning
Software Packages: Express JS, Bootstrap, Node.js, React, Tailwind, Figma, Matplotlib, Pandas
Soft Skills: Critical Thinking, Creativity, Decision-making
Others: Photoshop

EXTRA-CURRICULAR ACTIVITIES

A PC gaming enthusiast.
